COOL NEW PRODUCTS

TRIM-KUT® DISCS NEW!

This is the exclusive manufacturer in the world for Trim-Kut. Trim-Kut is a revolutionary abrasive disc designed to grind and finish a wide variety of materials faster and cooler than any other abrasive disc available today. The patented process of fusing premium abrasive grains to a durable polymer backing results in a highly versatile grinding tool that requires no backing pad. Trim-Kut is readily trimmable to either renew the cutting surface or reduce the diameter. Trim-Kut discs are available in 3" and 5" for use on a drill or die grinder and 4.5" for use on an angle grinder. These durable discs can be used for grinding or sanding. Another major feature is that the discs can be trimmed. When the outside edge is loaded to the point where it is not grinding effectively, trim it off.

TRIM KUT® DISC

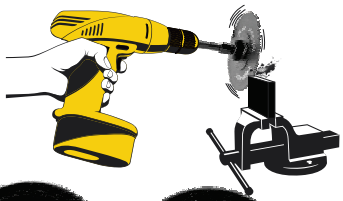

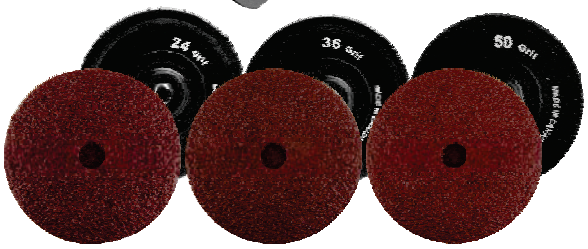

15826PK

Mandrel tool comes included in each box of Trim Kut Discs & also sold in packages of 2.

Revolutionary trim down feature eliminates need for small disc for hard to get at areas.

Trim down feature reduces diameter of disc exposing a new grinding surface at operating R.P.M.

COOL NEW PRODUCTS

Rivets

Rivets Multi Grip Pop Aluminum & Steel

NEW!

The Multi-Grip rivet will serve in applications where solid, soft materials and thicknesses normally require several rivet sizes. Oversize, irregular or misaligned holes are automatically compensated for by self adjusting hole-filling capability. The mandrel head is retained in the rivet body, forming a tight, weather resistant seal.
