4116PK	1/4 x 2"	Zinc	100 Pcs.

### Insert

Insert as you would any ordinary cotter pin. Hammer Lock pins have specially tapered parallel shanks for quick insertion.

### Hit with Hammer

When hammer hits head of Hammer Lock pin, it forces the shorter shank down over the curved end of the longer shank, thus causing the lower ends of the shanks to spread apart. This simple operation locks the pin securely in place. No twisting or spreading of the shanks is necessary. It is all done automatically!

### Twist to remove

To remove, insert any small tool in eye of Hammer Lock pin. Twist shorter shank to original position and remove.
